Price any card in seconds

Type a name. Boom, real price.
Over a million cards, raw or graded, updated 3x a day.

Your collection, leveled up

Add your cards and watch the total climb. It's an **inventory screen for your PC**, with real prices.

Never get lowballed

The trade meter tells you if a swap is fair **before you say yes**. No more "trust me bro" trades.

Deal radar

We flag cards selling **below their going rate** and tell you exactly what you'd save. First dibs, every day.

Grade it or nah?

Wondering if that card deserves a slab? We run the math: **grading fee vs. PSA 10 payday**. One glance.

Parent approved

Money stays protected until the card **actually shows up**. Safe for first-timers, no sketchy meetups.

Scan it. Your shoebox is **waiting**.

Check one card. That's how it starts. Ten minutes later you've priced the whole binder.
