

Your showcase is great. Now put it in **every collector's pocket.**

You already do the hard part: sourcing cards, grading eyes, real relationships. GEMLINE gives your shop a second front door that never closes, so the collector three states away can buy from you as easily as the regular who stops in every Saturday. **No listing fees, no ad upsells. One simple plan: \$10 a month plus 5% when you sell. That's it.**

Your own storefront page

A branded shop page with your inventory, your story, and real customer reviews. Collectors follow shops they trust, and they come back.

Customers beyond your zip code

Your best cards deserve more eyeballs than foot traffic allows. List once and reach collectors across the country, 24/7.

Keep more of every sale

Just 5% when a card sells, a fraction of what the big auction sites take once their fees stack up. No insertion fees, ever. Payouts are Stripe-secured and land after the buyer confirms.

Escrow that protects you too

Money is held safely until delivery is confirmed. No chargeback roulette, no "item not received" games. Sellers get real protection here.

A live Price Guide behind the counter

Over a million cards priced against live market data, every grade. Price trades and buy collections with confidence, right from your phone.

Live auctions & real trades

Run auctions on your hits, take trade offers with a built-in fair-value meter. It's the energy of a show table, online.
